PROFESSIONAL SUMMARY

Frontend developer with hands-on experience in HTML, CSS, JavaScript, and React.js, backed by a working foundation in SQL and REST API concepts. Has built and shipped real front-end features in agile, remote team settings across two organizations. Quick learner, comfortable with ambiguity, and looking for a structured trainee program to build production features end to end and grow into a full-stack role.

TECHNICAL SKILLS

Languages / Web: JavaScript, React.js, HTML, CSS, PHP, SQL

Databases: SQL (relational)

Concepts: REST API concepts and HTTP request/response fundamentals

Tools: Git, GitHub, ServiceNow, MS Excel

Practice: Data structures & algorithms (LeetCode, HackerRank)

WORK EXPERIENCE

Frontend Development Intern — Code Alpha

Mar 2026 – Apr 2026 | Remote

- Completed a remote front-end development internship, building responsive web page layouts and UI components using HTML, CSS, and JavaScript.
- Practiced core front-end concepts including DOM manipulation, form handling, and layout techniques while working through self-paced project tasks.
- Used Git for version control to track changes and submit completed internship tasks.

Developer Intern — Open Weaver (via ICT Academy)

Aug 2024 – Oct 2024 | Remote

- Built a functional e-commerce website using HTML, CSS, and JavaScript on a low-code platform; received positive client feedback.
- Developed responsive web applications with cross-browser compatibility and performance optimization.
- Collaborated in an agile team environment, following structured workflows and code review practices.

PROJECTS

Restaurant Menu App — HTML, CSS, JavaScript, React.js

- Designed and built an interactive restaurant menu interface using component-based React architecture.
- Implemented a responsive layout that adapts across screen sizes for a consistent viewing experience.

Expense Tracker — JavaScript, React.js

- Built a transaction manager with add/remove functionality and a live-updating balance display.
- Managed application state in React to keep the UI in sync with underlying transaction data.

[Personal Portfolio Website](#) — React.js

- Built a component-based portfolio site with About, Skills, Projects, and Contact sections.
- Structured reusable React components to present skills and project work in a clean, navigable layout.

CERTIFICATIONS

- Intro to Software Testing — Simplilearn — SDLC, STLC, manual testing, test case writing, automation basics
- Data Analyst Fundamentals — One Roadmap — SQL, Excel, data visualization, data cleaning
- ServiceNow Micro Certification — ITSM fundamentals, ticket workflows, digital workflow automation
- SEO Certified — HubSpot — on-page/off-page SEO, keyword research, search engine algorithms
- CSS Crash Course — Udemy — animations, transitions, CSS Box Model, responsive design
- HTML Tags & Attributes — Great Learning — semantic HTML, forms, tables, multimedia

EDUCATION

B.Tech – Computer Science Engineering | Uttaranchal University, Dehradun | 2020 – 2024

Senior Secondary (Class XII) – Mathematics | CBSE | 2019 – 2020

High School (Class X) | CBSE | 2017 – 2018
